

WHAT WE BELIEVE IN

Deciphering the seed of the structural system while designing and exploring materials to their full potential considering their maximum stretchable bandwidth before failure . Learning structures from nature and from everything around us. Our vision for the role of engineering in design and of design in engineering was shaped by Humanistic, rather than simply technical principles.

KEY PROJECTS HANDLED INCLUDE:

Azim Premji Foundation-Schools and District Institutes across India.

IIIT-Bangalore

National Military War Memorial- Bangalore.

Raas Hotels- Jodpur.

Residence for Managing Director of JK Tyres -Delhi.

Residence for Managing Director of Soma Constructions -Bangalore.
