Course review		
	Item 1	
Discussion		
<p>B'Arch Largely course reviews seem okay. Briefs need to be shared with the students before the beginning of the course. Moodle is not accessible to bachelor's students. Printouts of courses on Moodle should be given to students so that there's a level of transparency. Students feel they'll be more adept if the course plan is shared beforehand. Jury dates also need to be figured out. Year coordinators need to compile that for each year, by Saturday. Dates need to be updated on the Event Chart.</p> <p>M'Arch The Course reviews have been shared with the master's faculty. Students do face an issue with the English language. Students find the course load to be a little high. Faculty needs to ensure students engage with the Moodle platform. Assignments and submissions can be taken on Moodle to activate the platform more. The Academic writing course was appreciated. The Infrastructure Urbanism course was helpful.</p>		
Masters semester 2 exams		
	Item 2	
Discussion		
<p>The masters second semester exams will be held next week on 10th and 12th of August. The invigilators for the same have been informed. the students will be getting study leave before the exams</p>
